FIRST PODIUM FOR KM99

We finished this legendary race in 2nd place, achieving our first podium in just two years of existence. This result is a source of immense pride for the entire team and rewards the hard work we have put in since our inception.

« "We are extremely proud of this result, which highlights our capabilities and performance on the world stage », " said Gaëtan Schyns, Team Owner.

« Sharing the podium with the two biggest endurance teams in the world (YART, P3, and Yoshimura SERT Motul, P1) is a tremendous honor for us, especially considering this is only our second participation in this iconic race. »

FINAL RESULT AND CHAMPIONSHIP STANDINGS

In summary, we finished the race in P2, as the top private team, the best Yamaha, and the leading bike equipped with Dunlop tires. This podium marks a significant milestone for our young team.

In the overall championship standings, we secured 4th place, finishing as the top private team behind three factory teams.

« This result is a major achievement for us, as we have met our goal of becoming the best private team in the World Endurance Championship, and we did it in just our second year of participation », added Mario Kupper, Team Manager.

GOALS ACHIEVED AND LOOKING TO THE FUTURE

With this podium and our status as the best private team, KM99 has cemented its place among the elite of world endurance racing. We would like to thank all our partners, supporters, and team members for their unwavering support throughout the season.
